DUAL LICENSURE

Guidelines

In response to inquiries regarding licensed Doctors of Chiropractic holding two or more healing art licenses, the following information is provided:

1. Prior to examination and/or treatment, the licensee is expected to explicitly inform the patient that services MAY be provided under one or all licenses which are valid and current.
2. The examination and/or treatment provided during each office visit and the license(s) under which it was provided must be clearly identified and differentiated in the patient's treatment records.
3. The examination and/or treatment provided during each office visit and the license(s) under which services are provided must be clearly identified and differentiated on the patient's billings, whether single or multiple claims are filed.
4. The licensee is strongly encouraged to carry malpractice insurance for all fields of practice (e.g., chiropractic malpractice coverage with an acupuncture endorsement).
